STRATEGIC PLAN 2016-2021

December 2015

The ConVal School District Strategic Plan covers the years 2015-2016 through 2020-2021. It is our hope that this document will provide you with important information that acts a roadmap for our vision for curriculum, technology, and facilities over the next several years.

This plan is meant to guide our planning for the future, and allocate resources, so we can meet the needs of children and our community at large.

If after reading through the document you have questions or comments, please share them with your School Board representative.

Our goal is continuous improvement as we work towards providing an excellent education for every child, every day.

Strategic Plan Goals

#1 Student Achievement/Performance

Recognizing that the primary mission of the ConVal School District is student learning, the ConVal School District will provide high quality educational opportunities for all students that foster academic growth, the acquisition of identified critical skills, and the development of dispositions that lead to success in higher education and the workplace.

#2 Culture and Community

Recognizing the importance of maintaining a strong, supportive culture among students, staff, families, and fellow ConVal citizens, the ConVal School District, will work with these groups to foster a responsive, caring, and high-achieving culture where all feel highly engaged, valued, and included.

#3 Organizational Structure

Recognizing the importance of aligning our schools and staffing with the current best practices, demographic realities, and geographic challenges, the ConVal School District will develop an organizational structure to ensure that all students receive the most equitable high quality resources and opportunities available.

#4 Operations (Including Personnel, Leadership, Facilities, and Technology)

Recognizing that maintaining high quality learning environments and highly competent staffing is necessary to ensure student success, the ConVal School District will effectively research, plan, and implement best practices around facilities, personnel, leadership, and technology.

“To provide opportunities and inspire our learners to explore interests, pursue new knowledge and skills, learn about self and others, and give of oneself to the greater community

- ConVal Mission Statement

STRATEGIC PLAN 2016-2021

December 2015

Strategic Plan Goals and Focus Areas

Goal 1 Student Achievement /Performance

Focus Areas

1. Implement researched based learning frameworks and teaching strategies to increase student learning and achievement
2. Implement a fully inclusionary and equitable model across all school buildings, to the greatest extent possible
3. Utilize a balanced student assessment program to assess student progress and determine appropriate interventions
4. Students will become partners in their own learning experiences

Goal 2 Culture and Community

Focus Areas

1. Promote collaboration between students, staff, and community by demonstrating respect for all
2. Provide enhanced curricular opportunities through community partnerships
3. Provide clear communication tools for use by students, staff, and community
4. Engage the community in determining and assessing goals
5. Work with the greater community to maximize the effective use of community resources

Goal 3 Organizational Structure

Focus Areas

1. Provide multi grade/multi age as a philosophy, rather than financial decision for providing instruction
2. Pursue the notion of a ConVal "Culture"
3. Provide the ConVal community with educationally sound organizational structure options to consider
4. Develop a framework for new school configuration options and use of "excess" space
5. Finalize plans for renovation of the high school to meet new curricular standards

Goal 4 Operations

Focus Areas (Leadership)

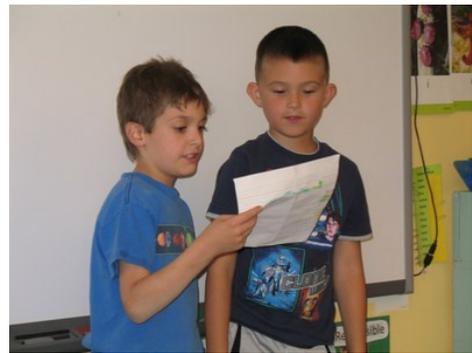

1. Support for physical, social, and academic needs of stakeholders
2. Develop internal leadership opportunities

Focus Areas (Personnel)

3. Hire, train, and retain highly qualified staff
4. Create an evaluation system that identifies best practices
5. Fair and competitive compensation packages

Focus Areas (Facilities and Technology)

5. Provide high quality learning environments
6. Centralized building data sites
7. Equitable access to technology resources
